

Gallagher

Waitrose Distribution Centre

Milton Keynes

CIVIL ENGINEERING

Gallagher Ltd undertook the groundworks package for a new Waitrose distribution centre in Milton Keynes on behalf of McLaren.

At 55,000m² in just 24 weeks, this project is one of the largest and fastest sheds Gallagher has ever built.

Gallagher undertook the foundations, drainage (consisting of pipes from 100-825mm diameter and multiple interceptor tanks with the largest having 1.7 hectares of storage) and the concrete service yard for the project.

On the back of our impressive performance, Gallagher Ltd was awarded the job of extending the neighbouring AG Barr warehouse.
