

## ABILY BARN

Staplehurst, Kent

Kentish Ragstone floor tiles were used for the hallway of a barn conversion in Staplehurst. The result is a floor that is aesthetically pleasing, hard wearing and in keeping with Kent's local architecture.

Gallagher's Kentish Ragstone is now available in a selection of floor and wall tiles, cut and textured to suit our clients' specific requirements. The rich earthy colours of the limestone lend itself to being used in a variety of projects, internally and externally.

## FACTS

Gallagher is the last remaining company still quarrying Kentish Ragstone, the most widespread building stone used throughout the South East of England.

To maintain the local character of Kent's architecture, Gallagher's Hermitage Quarry supplies building stone for restoration and new build projects.
